**Municipal Public
Works Association
of Nova Scotia
(MPWANS)**

The Municipal Public Works Association of Nova Scotia (MPWANS) was first established in the 1980s with the aim of bringing public works service providers together to share ideas, experiences and challenges. Association members include 55 Nova Scotia and PEI municipalities who are represented by their public works directors, managers, supervisors, technicians, engineers and operators.

We are hosting our annual spring conference from May 13 - 15, 2026 in Chéticamp, Cape Breton Island. This event provides important opportunities to learn from technical and operational presentations, meet suppliers and discover new services and products, and network through round-table discussions and social events. The Association creates important connections for our members, and our list serve provides us with a platform to regularly communicate with each other on various topics.

We welcome vendors, consultants and suppliers who are interested in supporting the organization to reach out to us at sponsorship@invernesscounty.ca for more information on becoming a presenter, sponsor or vendor at our conference.
